

## Looking for a simple and effective way to meet THC labeling regulations? Use RevealPrint!

Using **RevealPrint** color-on-demand labels in your cannabis labeling operation will **save you time and money**. Your thermal printer and labeling software can be used to **highlight the presence of THC** - on-the-fly. Tell us the color you need and where, and you will be in complete control of the data on your label – with one color, two colors – up to eight colors on one label.

Stop buying thermal labels with pre-printed THC symbols that sit on the shelf waiting to be used. **Reduce your consumables inventory** by imaging the regulatory information on-demand – with no inks or ribbons. Use the same label for THC and non-THC cannabis products – **One Label, Many Options!**

### APPLICATIONS INCLUDE:

#### THC Indicator

RevealPrint allows you to use the same label for THC and non-THC products, on the fly! Need a warning along with the symbol – not a problem, you can image that as well!

#### Refrigeration Required

Make sure important storage information **STANDS OUT** helping ensure your product is stored properly, reducing the chance that poor storage conditions could affect the quality of the product.

### WHAT'S IN IT FOR YOU:

#### Save money -

- Reduce consumables – no inks or ribbons to buy
- No pre-printed labels to buy and store
- Shipping, storage

#### Save labor costs

- No more changing out rolls of pre-printed labels

#### Healthy employees & environment

- BPA/BPS/Phenol free
- Leuco dye free

#### Shelf life up to 3 years!

#### Easily Recyclable
